

REMARKS

Claims 1 - 89 and 115 - 127 are pending. Claims 90 - 114 have been cancelled.  
Claims 44 and 70 have been amended. No new matter has been added.

In the July 13, 2005 Office Communication, the Examiner required that the applicants select one of the following patentably distinct species of the claimed invention: Group I claims (claims 1 - 89 and 115 - 127) directed to a method and system for an electronic device having a transceiver adapted to communicate with a server system, classified in class 455, subclass 73; Group II claims (claims 90 - 99) directed to a method and system for payment processing, classified in class 705, subclass 77; Group III claims (claims 100 - 107) drawn to a method and system for monitoring and reporting status of a terminal, classified in class 455, subclass 9; and Group IV claims (claims 108 - 114) drawn to a method and system for transmitting an authorization with access codes.

The applicants elect, without traverse, the continued prosecution of the **Group I claims**, i.e, the applicants elect to continue prosecution in this application on **claims 1 - 89 and 115 - 127**. The applicants cancel, without prejudice, claims 90 - 114.
